CORE SKILLS

C#

.NET

.NET Core

ASP.NET

WCF

JavaScript

TypeScript

Node.js

Express

Java

Python

SQL Server

SSMS

SSRS

REST APIs

OAuth

Docker

Git

HTML

CSS

Angular

React

Bootstrap

STRENGTHS

Back-end development

APIs, integrations, reporting exports, authentication, data workflows.

Front-end development

Responsive interfaces, forms, dashboards, usability, and JavaScript behavior.

Systems mindset

PROFESSIONAL EXPERIENCE

Junior Software Developer

OCT 2025 - PRESENT

iST (Integrators of Systems Technology)

- Developing a performance monitoring dashboard for iST employees to track operational software and system performance.
- Building a client portal that helps users track data readings, energy consumption, and transaction activity.
- Supporting ecWIN7 software by fixing reported bugs and implementing requested product features.
- Working across C#, .NET, SQL Server, SSMS, SSRS, REST APIs, and front-end technologies to deliver practical business features.

Junior Software Developer

SEP 2024 - SEP 2025

iST (Integrators of Systems Technology)

- Developed drivers for meter data acquisition and integration workflows.
- Created a SQLExport system used to generate reports and support data visibility.
- Investigated defects, tested fixes, and supported improvements across internal and client-facing software.

Full-Stack Developer

MAR 2024 - AUG 2024

CAPACITI Full Stack Development Graduate Program

- Completed intensive full-stack training covering front-end and back-end development, APIs, SQL databases, cloud platforms, authentication, security, Git, responsive UI design, and development automation.
- Built web applications and practical coding projects using JavaScript, Node.js, Express, SQL, HTML, CSS, and Bootstrap.

TECHNICAL SKILLS

SERVER-SIDE

C#, Java, .NET, .NET Core, ASP.NET, WCF, Node.js, Express, Python

DATA AND REPORTING

SQL Server, SSMS, SSRS, SQL exports, file storage, reporting workflows

WEB DEVELOPMENT

JavaScript, TypeScript, HTML, CSS, Angular, React, Bootstrap, responsive UI

TOOLS AND PRACTICES

REST APIs, OAuth, Docker, Git, debugging, performance monitoring, production support

SELECTED PROJECTS

Performance Monitoring Dashboard Employee-facing dashboard for software and system performance visibility.	Client Portal Tracks meter readings, energy consumption, and transaction data for users.
Weather App JavaScript API project with city search, forecast cards, weather icons, and error states.	Soccer Player Registry Java Swing application with forms, player records, file persistence, and desktop UI flow.
Snake Game Browser game using JavaScript movement, scoring, collision handling, and game-over states.	Slot Machine Python command-line game with deposits, betting logic, random outcomes, and win calculation.

EDUCATION

Bachelor's Degree in Computer Science In progress	FEB 2026 - NOV 2028
Diploma in Information Technology Tshwane University of Technology 9 distinctions Top 5 in Advanced Object-Oriented Programming 326R (2023)	JAN 2020 - NOV 2023
Science, Math and Engineering Kgagatlou Secondary School	2015 - 2019

CERTIFICATES AND TRAINING

- CAPACITI Full Stack Development Graduate Program certificate.
- Udemy courses in C# Basics, C# Intermediate, Clean Code, Unit Testing, and SSRS.
- Cisco badges completed during university and AI Academy training completed.
- AI Academy training completed.
- Certificates and badges are available on LinkedIn.
